(parts listed in order of best value)

Performance and Tuning

Power

[\[Click Here for more information\]](#)

- Cat Back Exhaust

Engine

[\[Click Here for more information\]](#)

- Performance Engine Rebuilds

Other

- Replacement intake panel filter (save \$\$ on future maintenance)
- Radiator pressure cap 1.3 bar. STi (Extra safety for hot days)
- High performance oil filter. STi (Increased flow and filtration)
- Alloy Pulley kit. (Increased throttle response)

Reasons why you can rely on MRT

- Factory Warranty Guarantee *
- Nationwide support and warranty.
- Lifetime Warranty on all parts.
- Single supplier support. (no blaming others).
- Money Back Guarantee
- 18 years experience.

Suspension and Tuning

[\[Click Here for more information\]](#)

- | | |
|---|--|
| <ul style="list-style-type: none"> • Sports Wheel Alignment (Improves handling) • Front Swaybar (reduces body roll) • Rear Swaybar (reduces body roll) • Swaybar End Link (front and rear) (Improved reliability) • Positive shift kit. (Reduces sloppy gear shifting) • Anti lift kit (Improved grip and handling) • Front Roll Centre kit (reduces body roll) • Precision steering kit. (Reduces movement of steering rack) • Front control arm rear brace (Improved chassis / suspension stiffness) • Lower front chassis brace (Improved chassis stiffness) • Front strut brace (Improved chassis stiffness) • Front control inner bush kit (Improved handling) • Rear diff positive power kit (Improves stability in cornering) | <ul style="list-style-type: none"> • Rear diff positive power kit, front. (Improves stability in cornering) • Rear sway bar mount brace (Improves performance of sway bar) • Rear trailing arm front bush kit (Improves handling) • Rear diff support kit (Locks diff support to body, improves rigidity) • Rear lateral link, adjust, toe. (Improves wheel alignment and stability in cornering) • Rear Sub frame lock kit. (Improves rigidity) • Front adjustable strut top kit (Improves alignment and grip) • Coilovers - Adj Height, Bump & Rebound for Australia Roads (Various Options to suit your needs, intended use and budget) |
|---|--|

Transmission

5 speed Manual

- | | |
|--|--|
| <ul style="list-style-type: none"> • Short shift kit (adjustable). (Improves shifting) • Synthetic oils. Gearbox / Rear diff. (Improves reliability, reduces heat) | <ul style="list-style-type: none"> • Heavy Duty Clutch (Improves reliability, stronger than std) • Lightened flywheel (Improves throttle response) |
|--|--|

4 Speed Automatic

- Heavy duty oil change-over. (Improves shifting, more durable than standard)
- Transmission cooler kit (Improves reliability, reduces heat soak problems)

Brakes

[\[Click Here for more information\]](#)

- Brake Fluid High temp, bleed and flush (Reduced brake fade and a firmer pedal)
- MRT Brake Pads *Sport* (Improved reliability for occasional track use)
- Brake Rotors Serious Street / Track Slotted
- Stainless Steel Brake Lines (improves line pressure – better feel)
- Brake Master Cylinder Support Bracket (improves pedal feel, increases brake efficiency)
